

## School Showcase

Our partner schools showcased some of the projects their schools had worked on in the past. Teachers could browse the booths and have fruitful conversations with one another.

### St. Andrew's Catholic Primary School

**Ms Ng**, the English Panel of the school, together with two Primary 6 students, introduced the Annual English Activity Day at their school. With the topic of 'Travel Around The World In One Day', Ms Ng introduced some exciting activities this year to develop the school's language-rich environment, including game booths, treasure hunt and in-class activities. The school brought along the props they used for English Activity Day and visitors were very impressed by them. The two students also demonstrated how to play the games by using the props.

“Visitors were impressed by the students' passion and attitude when they were demonstrating the games.”
